

Showing Section 120 of the Marine Mammal Protection Act of 1972 (16 U.S.C 1389)

As amended by H.R. 564

[text to be struck bracketed and in gray; new text in yellow]

§1389. Pacific Coast Task Force; Gulf of Maine

(a) Pinniped removal authority

Notwithstanding any other provision of this subchapter, the Secretary may permit the intentional lethal taking of pinnipeds in accordance with this section.

(b) Application

(1) A State may apply to the Secretary to authorize the intentional lethal taking of individually identifiable pinnipeds which are having a significant negative impact on the decline or recovery of salmonid fishery stocks which-

(A) have been listed as threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(B) the Secretary finds are approaching threatened species or endangered species status (as those terms are defined in that Act); or

(C) migrate through the Ballard Locks at Seattle, Washington.

(2) Any such application shall include a means of identifying the individual pinniped or pinnipeds, and shall include a detailed description of the problem interaction and expected benefits of the taking.

(c) Actions in response to application

(1) Within 15 days of receiving an application, the Secretary shall determine whether the application has produced sufficient evidence to warrant establishing a Pinniped-Fishery Interaction Task Force to address the situation described in the application. If the Secretary determines sufficient evidence has been provided, the Secretary shall establish a Pinniped-Fishery Interaction Task Force and publish a notice in the Federal Register requesting public comment on the application.

(2) A Pinniped-Fishery Interaction Task Force established under paragraph (1) shall consist of designated employees of the Department of Commerce, scientists who are knowledgeable about the pinniped interaction that the application addresses, representatives of affected conservation and fishing community organizations, Indian Treaty tribes, the States, and such other organizations as the Secretary deems appropriate.

(3) Within 60 days after establishment, and after reviewing public comments in response to the Federal Register notice under paragraph (1), the Pinniped-Fishery Interaction Task Force shall-

(A) recommend to the Secretary whether to approve or deny the proposed intentional lethal taking of the pinniped or pinnipeds, including along with the recommendation a description of the specific pinniped individual or individuals, the proposed location, time, and method of such taking, criteria for evaluating the success of the action, and the duration of the intentional lethal taking authority; and

(B) suggest nonlethal alternatives, if available and practicable, including a recommended course of action.

(4) Within 30 days after receipt of recommendations from the Pinniped-Fishery Interaction Task Force, the Secretary shall either approve or deny the application. If such application is approved, the Secretary shall immediately take steps to implement the intentional lethal taking, which shall be performed by Federal or State agencies, or qualified individuals under contract to such agencies.

(5) After implementation of an approved application, the Pinniped-Fishery Interaction Task Force shall evaluate the effectiveness of the permitted intentional lethal taking or alternative actions implemented. If implementation was ineffective in eliminating the problem interaction, the Task Force shall recommend additional actions. If the implementation was effective, the Task Force shall so advise the Secretary, and the Secretary shall disband the Task Force.

(d) Considerations

In considering whether an application should be approved or denied, the Pinniped-Fishery Interaction Task Force and the Secretary shall consider-

(1) population trends, feeding habits, the location of the pinniped interaction, how and when the interaction occurs, and how many individual pinnipeds are involved;

(2) past efforts to nonlethally deter such pinnipeds, and whether the applicant has demonstrated that no feasible and prudent alternatives exist and that the applicant has taken all reasonable nonlethal steps without success;

(3) the extent to which such pinnipeds are causing undue injury or impact to, or imbalance with, other species in the ecosystem, including fish populations; and

(4) the extent to which such pinnipeds are exhibiting behavior that presents an ongoing threat to public safety.

(e) Limitation

The Secretary shall not approve the intentional lethal taking of any pinniped from a species or stock that is-

- (1) listed as a threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);
- (2) depleted under this chapter; or
- (3) a strategic stock.

[(f) California sea lions and Pacific harbor seals; investigation and report

(1) The Secretary shall engage in a scientific investigation to determine whether California sea lions and Pacific harbor seals-

(A) are having a significant negative impact on the recovery of salmonid fishery stocks which have been listed as endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), or which the Secretary finds are approaching such endangered species or threatened species status; or

(B) are having broader impacts on the coastal ecosystems of Washington, Oregon, and California.

The Secretary shall conclude this investigation and prepare a report on its results no later than October 1, 1995.

(2) Upon completion of the scientific investigation required under paragraph (1), the Secretary shall enter into discussions with the Pacific States Marine Fisheries Commission, on behalf of the States of Washington, Oregon, and California, for the purpose of addressing any issues or problems identified as a result of the scientific investigation, and to develop recommendations to address such issues or problems. Any recommendations resulting from such discussions shall be submitted, along with the report, to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

(3) The Secretary shall make the report and the recommendations submitted under paragraph (2) available to the public for review and comment for a period of 90 days.

(4) There are authorized to be appropriated to the Secretary such sums as are necessary to carry out the provisions of this subsection.

(5) The amounts appropriated under [section 4107\(c\) of this title](#) and allocated to the Pacific States Marine Fisheries Commission may be used by the Commission to participate in discussions with the Secretary under paragraph (2).]

(f) Temporary Marine Mammal Removal Authority on the Waters of the Columbia River or Its Tributaries.

(1) REMOVAL AUTHORITY- Notwithstanding any other provision of this Act, the Secretary may issue a permit to an eligible entity authorizing the intentional lethal taking on the waters of the Columbia River and its tributaries of sea lions that are part of a healthy population that is not listed as an endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), to protect endangered and threatened species of salmon and other nonlisted fish species.

(2) PERMIT PROCESS-

(A) IN GENERAL- An eligible entity may apply to the Secretary for a permit under this subsection.

(B) DEADLINE FOR CONSIDERATION OF APPLICATION- The Secretary shall approve or deny an application for a permit under this subsection by not later than 30 days after receiving the application.

(C) DURATION OF PERMIT- A permit under this subsection shall be effective for no more than one year after the date it is issued, but may be renewed by the Secretary.

(3) LIMITATIONS-

(A) LIMITATION ON PERMIT AUTHORITY- Subject to subparagraph (B), a permit issued under this subsection shall not authorize the lethal taking of more than 10 sea lions during the duration of the permit.

(B) LIMITATION ON ANNUAL TAKINGS- The cumulative number of sea lions authorized to be taken each year under all permits in effect under this subsection shall not exceed one percent of the annual potential biological removal level.

(4) DELEGATION OF PERMIT AUTHORITY- Any eligible entity may delegate to any other eligible entity the authority to administer its permit authority under this subsection.

(5) NEPA- Section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) shall not apply with respect to this subsection and the issuance of any permit under this subsection during the 5-year period beginning on the date of the enactment of this subsection.

(6) SUSPENSION OF PERMITTING AUTHORITY- If, 5 years after enactment, the Secretary, after consulting with State and tribal fishery managers, determines that lethal removal authority is no longer necessary to protect salmonid and other fish species from sea lion predation, may suspend the issuance of permits under this subsection.

(7) ELIGIBLE ENTITY DEFINED- In this subsection, the term “eligible entity” means each of the State of Washington, the State of Oregon, the State of Idaho, the Nez Perce Tribe, the Confederated Tribes of the Umatilla Indian Reservation, the Confederated Tribes of the Warm Springs Reservation of Oregon, the Confederated Tribes and Bands of the Yakama Nation, and the Columbia River Inter-Tribal Fish Commission.

(g) Regionwide pinniped-fishery interaction study

(1) The Secretary may conduct a study, of not less than three high predation areas in anadromous fish migration corridors within the Northwest Region of the National Marine Fisheries Service, on the interaction between fish and pinnipeds. In conducting the study, the Secretary shall consult with other State and Federal agencies with expertise in pinniped-fishery interaction. The study shall evaluate-

(A) fish behavior in the presence of predators generally;

(B) holding times and passage rates of anadromous fish stocks in areas where such fish are vulnerable to predation;

(C) whether additional facilities exist, or could be reasonably developed, that could improve escapement for anadromous fish; and

(D) other issues the Secretary considers relevant.

(2) Subject to the availability of appropriations, the Secretary may, not later than 18 months after the commencement of the study under this subsection, transmit a report on the results of the study to the

Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives.

(3) The study conducted under this subsection may not be used by the Secretary as a reason for delaying or deferring a determination or consideration under subsection (c) or (d) of this section.

(h) Gulf of Maine Task Force

The Secretary shall establish a Pinniped-Fishery Interaction Task Force to advise the Secretary on issues or problems regarding pinnipeds interacting in a dangerous or damaging manner with aquaculture resources in the Gulf of Maine. No later than 2 years from April 30, 1994, the Secretary shall after notice and opportunity for public comment submit to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report containing recommended available alternatives to mitigate such interactions.

(i) Requirements applicable to task forces

(1) Any task force established under this section-

(A) shall to the maximum extent practicable, consist of an equitable balance among representatives of resource user interests and nonuser interests; and

(B) shall not be subject to the Federal Advisory Committee Act (5 App. U.S.C.).

(2) Meetings of any task force established under this section shall be open to the public, and prior notice of those meetings shall be given to the public by the task force in a timely fashion.

(j) Gulf of Maine harbor porpoise

(1) Nothing in section 1386 of this title shall prevent the Secretary from publishing a stock assessment for Gulf of Maine harbor porpoise in an expedited fashion.

(2) In developing and implementing a take reduction plan under section 1387 of this title for Gulf of Maine harbor porpoise, the Secretary shall consider all actions already taken to reduce incidental mortality and serious injury of such stock, and may, based on the recommendations of the take reduction team for such stock, modify the time period required for compliance with section 1387(f)(5)(A) of this title, but in no case may such modification extend the date of compliance beyond April 1, 1997.

(Pub. L. 92-522, title I, §120, as added Pub. L. 103-238, §23, Apr. 30, 1994, 108 Stat. 562 .)
